The following is an examiner's statement of reasons for allowance: The claims are allowable over the references of record in that none of the references of record taught a method for providing stream data from a server to a client comprising the steps of monitoring operation of a stream control protocol, identifying a relative position within the stream data in response to detection of a stream change event and establishing transmission of the stream data starting at the identified location..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
